

SKK6200

Window curtain track

SKK6200 Window curtain track

Features:

The SKK6200 window curtain track is a white powder-coated aluminium track which is lightweight yet strong, and with roller runners, is ideally suited for ease of use in all hand-drawn curtain applications. Tests have shown that for anti-ligature purposes it is most important that the complete track collapses leaving no point of ligature. Even where a fixed track provides no ligature points, heavy weights can be suspended from the curtains which in turn is a serious potential risk. With the SKK6200 the track and curtain together will part from the SK brackets under abnormal load and can then be simply and quickly reinstated.

Benefits:

Constructed of a robust aluminium profile ensuring a consistently high level of performance, the SKK6200 makes an excellent choice for medium to heavy curtain usage. Offering both wall-fix and top-fix options to blend in well with any environment whilst remaining pleasing to the eye, this white powder-coated window curtain track with special low friction roller runners satisfies the most demanding of environments, whether it be residential or commercial. Secured by magnetic brackets for 100% fail-safe* anti-ligature functionality and in use in many mental health environments worldwide.

Specification:

The magnetic anti-ligature SKK6200 hand drawn window curtain track. Aluminium track with white powder-coated finish. Incorporating low friction roller runners at 16 per metre and magnetic wall-fix or top-fix brackets as necessary, spaced in accordance with manufacturer's recommendations. Fitting to be carried out by trained and accredited personnel.

O+M Guidance

It is an NHS requirement that items suspended on load-release support systems should be maintained and load-tested in accordance with the manufacturer's instructions on an annual basis. The SK system is maintenance-free and its performance remains constant even after repeated use. It is a requirement, however, to carry out a physical inspection and testing of YewdaleKestrel® fittings to identify any possible damage or evidence of tampering and undertake an annual load test. Annual testing should only be carried out by Protects Plus 0345 646 0955.

Width Inches	Width mm	No. of Brackets
39 ¹ / ₂ - 47 ¹ / ₄	1000 - 1200	2
55 - 86 ³ / ₄	1400 - 2200	3
94 ¹ / ₂ - 126	2400 - 3200	4
134 - 165 ¹ / ₄	3400 - 4200	5
173 ¹ / ₄ - 196 ³ / ₄	4400 - 5000	6
