

SKC77 Overhead Electric

SK Blackout Blinds

SKC77 Overhead Electric

Features:

The SK C77 electric overhead blackout unit with a Yewdale motor. All hardware in black powder-coated aluminium for face or recess fixing and enclosing 53mm and 57mm grooved aluminium barrels. Blackout fabric, with heavy duty bottom rail, is locked into a groove in the barrel and runs in 75mm side channels. Light-transfer baffles are within the side and bottom channels, and the side channels and head-box are fitted with pile-seal for light sealing. Fabric is mounted onto a sprung 57mm aluminium barrel whilst at the other end it is fitted to an aluminium bottom rail, attached to two draw tapes. These tapes are attached, between flanged guides, to the 53mm drive barrel, operated by a 230v AC Yewdale motor.

Benefits:

The SK C77 blackout unit is the ultimate in choice for 100% light exclusion requirements for sloping or horizontal roof windows when an electrically operated solution is sought after. With heavy duty componentry and tensioning action by powerful spring to the fabric roller, these blinds may be confidently specified for awkward or inaccessible locations. The 230v AC motor, which provides the luxury of reliable electrical fingertip control, is housed within the barrel and supported by sturdy, aluminium cassette system.

Options:

Remote and/or group control systems;
Available in any RAL colour.

Specification:

The SK C77 electric overhead blackout unit with 230v AC motor. Flame retardant blackout fabric from the SK range, on 57mm aluminium barrel with enclosed spring attached to aluminium bottom rail as standard. 53mm drive barrel connected to gear control crank mechanism operates blind by means of draw-tapes to the bottom bar. Black/white powder-coated aluminium headbox cassettes, side and bottom channels and bottom bar. Incorporating 230v AC motor.
